# Important Notice

## Installation Instructions

Installation instructions are used to guide the correct installation of intelligent toilet .  
Please read them carefully before installation.

## Icon and Identification

 **Danger** Lead to serious injury or even death.

 **Caution** Operation practice without physical injury.

## Please read the instructions in this Chapter

### Target Reader and Installer Qualifications

This intelligent toilet with water pipe can only be installed by qualified plumbers.  
Electrical installation can only be carried out by qualified electricians.

## Safety Instructions

 **Caution** Product and/or performance damage

\* Be sure to abide by the national/regional standards and local installation regulations.

 **Caution** Product damage caused by the frozen water

\* It is forbidden to install intelligent toilets in rooms with the risk of frost. The lowest indoor temperature is not less than 4°C.

 **Caution** Product damage caused by condensation

\* When the intelligent toilet is moved from the low temperature to the high temperature environment, please unplug the power for several hours firstly.

## Forbid to dismantle independent components

 **Danger** Deadly electric shock danger!

\* If the power cord is damaged, it must be replaced by the manufacturer's maintenance personnel or professionals.

\* Appliance must be properly connected to ground.

\* Fixed wiring must be equipped with an electric shock distance device under full-pole disconnection over-voltage level III conditions according to wiring rules.

\* Specification of fixed wiring power supply wire is 1-2.5 square millimeters of cross section area.

\* Ensure that the grounding end of the power supply line is 10 mm longer than that of the fire line (L) and the zero line (N).

 **Caution**

\* The unit of length in this installation instruction is millimeter (mm).

The fixed wiring must be provided with a device for full-stage disconnection under the condition of overvoltage class III according to the wiring rules and the contact distance.
