CIFIAL

Um legado na arte do saber fazer
A legacy in the art of know-how

Revestimentos - Características e manutenção

Ao adquirir um produto Cifial tem a garantia de que ele é consequência de um apurado processo de fabrico, do qual resulta um produto de elevada qualidade. Os produtos Cifial dão-lhe a satisfação de manterem o seu aspecto inicial, durante muitos anos, desde que os cuide adequadamente. Para isso é necessário que sejam seguidas algumas recomendações bastante simples.

Para todos os tipos de acabamento recomendamos que a limpeza seja feita apenas com água e sabão, ou detergentes apropriados. Nunca utilizar produtos que contenham ácido clorídrico, branqueadores, ou outros produtos inapropriados, incluindo dentífricos. Evitar o uso de esponjas abrasivas ou esfregões. Para secar o produto apenas deve utilizar flanelas, panos macios ou papéis de limpeza absorventes. Nas superfícies metálicas satinadas, a aplicação de um pouco de vaselina ou cera ajudará a manter o brilho.

Superfícies cromadas ou niqueladas

Os revestimentos electrolíticos, vulgarmente designados por galvanostegia, são executados na CIFIAL em instalações automáticas modernas, suportadas por estações de tratamento de efluentes e beneficiando de uma experiência de mais de 40 anos. O processo de electrodeposição galvânica confere ao substrato a resistência à corrosão, através de espessuras superiores a 15 micron de níquel e de 0,25 micron para o caso do cromo. Previamente à operação de recobrimento, é fundamental para a qualidade final do produto, efectuar uma correcta preparação das superfícies a recobrir feita na CIFIAL através de *robots* de lixagem e máquinas CNC de polimento. Sempre que necessário, um toque manual dá a personalização final que caracteriza os produtos CIFIAL.

Na sua limpeza deve ter em atenção que os produtos geralmente utilizados para a remoção de cimentos e tintas são altamente corrosivos para estas superfícies.

Superfícies plásticas, lacadas e rústicas

Nunca utilizar produtos que contenham álcool, éter, acetona ou outros solventes. O uso de qualquer abrasivo irá riscar a superfície e causar danos permanentes.

Superfícies PVD

A CIFIAL desenvolveu uma tecnologia de revestimento, que assenta na mais avançada tecnologia de PVD (Physical Vapor Deposition), na qual a Cifial foi pioneira.

O PVD melhora de forma significativa as características de dureza e resistência à abrasão da superfície. A sua dureza é superior a 2500 Vickers e, comparativamente a um processo de revestimento electrolítico tradicional, estes revestimentos aumentam para mais do dobro o seu tempo de resistência nos ensaios de corrosão (Corrodkote, Nevoeiro Salino Acético e Cass Test). As excelentes características deste revestimento resultam numa cor e brilho permanente ao longo da vida do produto; numa elevada resistência à deterioração pelos agentes químicos domésticos; numa grande resistência à corrosão por agentes atmosféricos e na elevada dureza, que lhe confere uma maior resistência ao desgaste. O PVD é uma tecnologia amiga do ambiente, não necessitando de tratamento de efluentes.

Estes revestimentos são muito mais resistentes aos riscos e mantêm o brilho por muito mais tempo, permitindo desta forma responder às melhores

expectativas dos consumidores e às aplicações mais exigentes. No entanto, não deve utilizar esponjas abrasivas ou qualquer outro suporte de limpeza contendo cerâmicos, pois podem danificar a superfície.

ACABAMENTOS DISPONÍVEIS

Revestimentos cromados ou niquelados

625 - Cromado Brilhante

626 - Cromado Fosco

635 - Cromado Fosco Granalhado

Revestimentos lacados ou rústicos

601 - Latão Envelhecido*

612 - White Lux Silk

614 - Black Lux Silk

615 - Brown Lux Silk

616 - Bronze Martelado*

617 - Níquel Martelado*

618 - Bronze Rústico*

619 - Níquel Rústico*

Revestimentos PVD

X41 - Antracite Escovado PVD

X45 - Antracite Granalhado PVD

* Nos acabamentos rústicos verificar-se-á um desgaste natural, por uso e por efeito das condições ambientais, que deve ser considerado normal.

Para os acabamentos não associados a cada linha de produto ao longo da tabela de preços, deve ser feita consulta no sentido de confirmar a viabilidade de execução, preço e prazo de entrega.

Finishes - Features and maintenance

By purchasing a CIFIAL product, we assure that it is the result of a precise and demanding manufacturing process resulting in a high quality product. With appropriate care and maintenance, CIFIAL products keep their original appearance for many years. You just need to follow some simple recommendations.

For all types of finish we recommend that cleaning be done only with soap and water, or suitable detergents. Never use products containing hydrochloric acid, bleach or other inappropriate products, including toothpastes. Avoid using abrasive pads or scouring pads. To dry the product you should only use rags, cloths or cleaning absorbent paper. For satin metal surfaces apply a little vaseline or wax to help keeping the brightness of surface.

Chromed or nickel finishes

The Electrolytic Finishes, currently called galvanic technology are processed with automatic and modern equipment, supported by state-of-the-art waste treatment stations, and taking benefit from more than 40 years of experience. This galvanic electrodeposition gives to the substratum resistance to corrosion through nickel thickness of more than 15 micron, and chromium thickness of more than 0,25 micron. Firstly, it is essential to prepare the surface correctly by grinding robots and CNC polishing machines. Whenever necessary a hand manual touch gives a final personalisation to CIFIAL products.

Be aware that all cleaning products generally used for removing paint and concrete are highly corrosive for these surfaces.

Plastic, lacquered and distressed finishes

Never use products containing alcohol, ether, acetone or other solvents. The use of any abrasive product will also scratch the surface and cause permanent damage.

PVD finishes

It is the top standard in the covering area, and is obtained by a physical vapours deposition of Zirconium, Titanium or other material. This finish increases the hardness and abrasion resistance. The hardness achieved is higher than 2500 Vickers and compared to the traditional electrolytic finishes, PVD increase to more than double their resistance time in the corrosion tests (Corrodkote, Aceptic Salt Spray and Cass Test). The excellent characteristics of this finish result on same colour and brightness for life; high resistance to oxidation by atmospheric agents; higher hardness that result on a higher wear resistance.

These surfaces are much more resistant to scratches and keep their brightness for much longer. However, do not use abrasive sponges or any other product containing ceramics as they can damage the surface.

AVAILABLE FINISHES

Chromed or nickel finishes

625 - Polished Chrome

626 - Brushed Chrome

635 - Blasted Chrome

Plastic, lacquered and distressed finishes

601 - Aged Brass*

612 - White Lux Silk

614 - Black Lux Silk

615 - Brown Lux Silk

616 - Distressed Bronze*

617 - Distressed Nickel*

618 - Rough Bronze*

619 - Rough Nickel*

Technological finishes

721 - Polished Níquel PVD

X10 - Polished Brass PVD

X16 - Bronze PVD

X17 - Gold PVD

X20 - Brushed Nickel PVD

X25 - Blasted Nickel PVD

X30 - Polished Copper PVD

X31 - Brushed Copper PVD

X35 - Blasted Copper PVD

X40 - Polished Antracite PVD

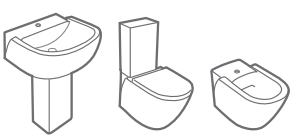

X41 - Brushed Antracite PVD

X45 - Blasted Antracite PVD

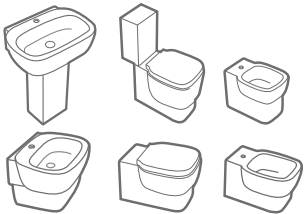

* Some traditional finishes are considered “living finishes” so, natural wear and weathering shell be considered normal.

For special finishes, which are not associated to the product line in this price list, availability must be confirmed for prices and delivery terms.

Saboneteira em Ipe, madeira de origem brasileira que, pelas suas propriedades, se adequa aos ambientes mais agressivos, sendo uma das madeiras preferidas na construção naval.

Soap dish in Ipe wood from Brazil which, by its properties, suits the most aggressive environments, one of the preferred woods in shipbuilding.

Resistente à água;
Não é susceptível ao ataque de fungos e insetos xilófagos;
Madeira muito dura com acabamento de durabilidade elevada.

Water resistant;
Not susceptible to fungal attack and wood-destroying insects;
Very hard wood finish high durability.

CONDIÇÕES GERAIS DE VENDA

1. OBJECTO

Todas as vendas efectuadas pela CIFIAL S.A., (NIF nº 504544918) e CIFIAL IC, (NIF nº 502702451) presumem-se feitas em harmonia com as presentes condições gerais de venda. A CIFIAL reserva o direito de, sem aviso prévio, modificar ou alterar produtos e valores apresentados nos seus catálogos e tabelas de preços. Todos os trabalhos não contemplados nesta tabela serão executados mediante orçamento prévio.

2. PREÇOS

Os preços serão os constantes nas nossas “Tabelas de Preços de Fabricante”. Os mesmos são “ex-works” e estendem-se, por isso, para as mercadorias colocadas nas nossas instalações, salvo quando haja referência expressa em contrário e serão sempre os vigentes à data dos fornecimentos. Aos valores apresentados acresce IVA à taxa legal em vigor à data da factura.

3. PRAZOS

Os prazos de entrega indicados pelo Vendedor contam-se sempre a partir da data da aceitação da encomenda e têm natureza previsual. O Comprador não poderá em caso algum exigir qualquer indemnização ou recuperar a mercadoria por atraso, na sua entrega ou incumprimento do prazo, podendo o Vendedor proceder a entregas parciais e executar as respectivas facturações.

4. RECLAMAÇÕES

- As reclamações devem ser apresentadas no prazo de 10 dias úteis imediatos ao fornecimento;
- Se a reclamação tiver fundamento, a CIFIAL só será responsável pela reparação ou, em último caso, pela reposição por troca, de igual produto;
- Caso a reclamação seja injustificada e o material se encontre em condições de ser comercializado, os Clientes têm 10 dias úteis, após a nossa comunicação, para levantar o respectivo material dos armazéns da CIFIAL.

5. DEVOLUÇÕES

- Todas as devoluções de produtos estão sujeitas à prévia aceitação pela CIFIAL;
- Das devoluções autorizadas poderão ser deduzidos gastos com recepção, prova, inspecção e desvalorização a acordar caso a caso com o Cliente.

6. PAGAMENTO

Para efeitos de pagamentos serão observadas as condições em vigor à data da factura.

7. RESERVA DE PROPRIEDADE

O Vendedor reserva o direito de propriedade da mercadoria até ao integral pagamento do seu preço.

8. CANCELAMENTO OU SUSPENSÃO

O Vendedor poderá, por seu interesse, cancelar ou suspender o fabrico de qualquer dos seus produtos e/ou de encomendas, sem que o Comprador tenha direito a qualquer indemnização por esse facto.

9. TRANSPORTES

Os artigos deverão ser correctamente inspeccionados à recepção. Na obsevação de qualquer vestigio de dano ou rebentamento da embalagem, deverá recusar a sua aceitação e mencionar o motivo na guia da empresa transportadora, ou aceitar sob reservas de verificação, assinalando esse facto nessa mesma guia do transportador. Caso não se concretize este pressuposto todos os custos de transporte inerentes à reclamação serão debitados ao cliente. Os danos atrás referidos deverão ser comunicados à CIFIAL até 3 dias após a recepção das mercadorias. Os encargos referentes ao transporte de mercadorias proveninete de devoluções (que não sejam responsabilidade da CIFIAL), serão debitados ao cliente.

10. FORO COMPETENTE

Fica desde já convencionado o Foro da Comarca de Santa Maria da Feira como competente, com exclusão de qualquer outro, para dirimir os litígios emergentes das Transacções Comerciais realizadas com base nestas condições.

CONDIÇÕES DE GARANTIA DO PRODUTO

A garantia do produto abrange apenas problemas de defeito de fabrico. As condições de garantia, instalação, regulação e manutenção acompanham o produto, pelo que devem ser conservadas e entregues ao consumidor final. Para além da garantia legal, a Cifial oferece-lhe uma garantia adicional contra defeitos de fabrico funcionais, a partir da data da factura, a qual deverá ser necessariamente apresentada. Ao abrigo desta garantia a Cifial assume a reparação, substituição de peças ou do produto, de acordo com a situação em causa, sem encargo para o cliente. Em qualquer dos casos excluem-se do âmbito desta garantia os eventuais custos de mão-de-obra e transporte.

1. PRAZOS DE GARANTIA

- Torneiras: 10 anos
(2 anos de garantia legal mais 8 de garantia adicional);
- Colunas de duche: 2 anos de garantia legal;
- Chuveiros, flexíveis e barras de chuveiro: 2 anos de garantia legal;
- Louça sanitária: 5 anos (2 anos de garantia legal mais 3 de garantia adicional);
- Tampos e mecanismos: 2 anos de garantia legal;
- Banheiras e Bases de duche: 2 anos de garantia legal;
- Móveis de Casa de Banho: 2 anos de garantia legal;
- Outros não mencionados: 2 anos de garantia legal.

A Cifial oferece-lhe ainda uma garantia sobre os diferentes acabamentos superficiais: 10 anos (2 anos de garantia legal mais 8 de garantia adicional) para PVD; 5 anos (2 anos de garantia legal mais 3 de garantia adicional) para cromado, niquelado e também para peças em aço inoxidável e 2 anos de garantia legal para os restantes acabamentos.

Da garantia de todas as classes de produto, excluem-se as seguintes situações:
• Danos sofridos, má utilização ou instalação inadequada;
• Substituição de peças de desgaste, fora do prazo legal de garantia, tais como: vedantes, membranas, cartuchos, cartuchos temporizados, inversores, componentes electrónicos, flexíveis, etc;
• Os produtos instalados para uso público ficam condicionados à garantia legal;
• Danos causados na superfície por limpeza inadequada ou derrame de produtos químicos;
• Produtos reparados ou intervencionados por pessoal não qualificado;
• Aplicação de peças não originais;
• Produtos instalados onde a água não é potável, ou que contenha impurezas ou substâncias químicas que possam causar danos ao produto;
• Danos causados pelo gelo.

2. ASSISTÊNCIAS TÉCNICAS

A CIFIAL presta o Serviço de Assistência Técnica gratuito apenas nas situações de “defeito de fabrico”. A confirmação do defeito de fabrico deve ser feita por técnicos da CIFIAL, nas nossas instalações (situação em que o produto dá entrada no departamento de qualidade), ou pela verificação no local, quando o tipo e dimensão do problema o justifique. Após a análise da ocorrência, sempre que não se confirme a responsabilidade da CIFIAL, o serviço será debitado. Note-se que, uma parte significativa das ocorrências para as quais é solicitada a intervenção da CIFIAL pode ser solucionada com operações simples de limpeza, manutenção e regulação (instruções que acompanham o produto), nomeadamente remoção de areias das válvulas e dos emulsores, etc.

3. SERVIÇO DE REPARAÇÕES

O serviço de reparações será prestado sempre que solicitado ao departamento de Serviço Pós-Venda, mediante aprovação prévia do orçamento apresentado pela CIFIAL. Perante uma reclamação com responsabilidade atribuída ao cliente final, o técnico da Cifial cobrará a deslocação, a mão-de-obra e os componentes utilizados na reparação. Na eventualidade da reparação não ser efectuada por opção do cliente final, o técnico da Cifial cobrará igualmente o valor da deslocação e da mão-de-obra realizada.

3.1) VALORES A COBRAR

Deslocação: €0,40/ km, a contar a partir da localização do revendedor Cifial; Mão-de-obra: € 25,00/ hora, mínimo a cobrar 1 hora; Preço dos componentes: a debitar de acordo com o preço de tabela. Caso haja necessidade de uma 2ª localização do técnico por falta de componentes, a mesma não será cobrada. O valor a cobrar pela deslocação terá em conta o percurso de ida e de regresso.

TERMS AND CONDITIONS OF SALE

1. OBJECT

All sales done by CIFIAL, S.A. must follow the general sales conditions.

2. PRICES

The prices are the ones on the “Manufacturer’s Price List”. The prices are Ex Works, except when agreed differently.

3. DELIVERY TERMS

The delivery terms are defined by the Seller and start with the order confirmation. They are a forecast of delivery. The Buyer in no situation can demand any indemnity or get the goods free due to late delivery or failure to deliver. The Seller can proceed with partial deliveries and invoice accordingly.

4. COMPLAINTS

- Complaints should be presented no later than 10 working days after shipping goods;
- If there are grounds for complaint Cifial will take responsibility either for the repair or the replacement of the product;
- If the product is still in a suitable condition to be used, the customer will have 10 working days after our communication to pick up the goods at our facilities.

5. RETURNS

- All returns are subjected to previous acceptance/authorization by Cifial;
- Costs related to the return (receiving, inspection, repair) may be charged to the customer. These will be assessed on a case to case basis.

6. PAYMENT TERMS

Payment shall be done according to the terms valid at invoice’s date.

7. RESTRICTION OF PROPERTY

The Seller keeps the ownership of the goods until full payment of the invoice.

8. TERMINATION OR ADJOURNMENT

The Seller can by its own interest terminate or adjourn the production of any of its goods. The Buyer has no right to any indemnity due to this reason.

9. APPLICABLE LAW ; JURISDICTION AND VENUE

This agreement will be governed by the Laws of Portugal. The Santa Maria da Feira Court will have exclusive jurisdiction and venue over any dispute arising out of this agreement, and Buyer hereby consents to the jurisdiction of such court.

PRODUCT WARRANTY CONDITIONS

The product warranty only covers problems of “defective manufacture”. Proof of purchase (original sales receipt) must accompany all warranty claims. Under this warranty, Cifial guarantees the repair and replacement of parts or products, according to a previous analysis of the problem, free of charge. In any case, this warranty does not provide any coverage for labour charges and displacements.

1. CIFIAL IC

A CIFIAL - Indústria Cerâmica, S.A. é certificada pela norma NP EN ISO 9001.

2. CIFIAL, S.A.

A CIFIAL, S.A. é certificada pela norma NP EN ISO 9001. A certificação da empresa sob a ISO 9001 oferece uma garantia do seu compromisso com a qualidade, desde a forma em que opera, até aos padrões de serviço ao cliente e aos produtos que entrega.

3. CERTIFICAÇÕES DO PRODUTO

3.1) CERTIFICAÇÃO C-UPC (USA E CANADÁ) - TORNEIRAS

As torneiras Cifial são certificadas segundo a Norma ASME A112.18.1/CSA B125 pelo organismo de certificação IAPMO. Esta certificação inclui a conformidade segundo a Norma NSF 61–secção 9 que regulamenta os teores de metais e componentes orgânicos para produtos em contacto com água para consumo humano.

3.2) CERTIFICAÇÃO PRODUTOS SANITÁRIOS CERÂMICOS

Os produtos sanitários Cifial obedecem aos requisitos legais em vigor da directiva da união europeia.

1. WARRANTY PERIOD

- Faucets: 10 years (2 years legal warranty more 8 years additional warranty);
- Shower columns: 2 years;
- Showers, flexibles and shower slide bar: 2 years;
- Sanitaryware: 5 years (2 years legal warranty more 3 years additional warranty);
- WC seats and flush mechanism: 2 years;
- Bathtubs and shower tray: 2 years;
- Bathroom furniture: 2 years;
- Others: 2 years. Additionally, Cifial finishes are also under warranty: 10 years for PVD; 5 years for chrome, nickel and for stainless steel parts; 2 years for plastic, lacquered and gold finishes. The following will not be covered by this warranty:
• Damages incurred by daily use, product misuse or inadequate installation;
• Replacement of wear parts, such as sealants, membranes, cartridges, diverters, electronic components, flexibles;
• Products installed for public use are covered by legal warranty;
• Damages to the surface caused by improper cleaning or spills of chemical products;
• Products repaired or intervened by unqualified personnel;
• Application of other than genuine Cifial spare parts;
• Damaged products due to the bad quality of the water (hard or unpotable water with impurities or chemical substances);
• Damages caused by frost.

2. TECHNICAL ASSISTANCE

CIFIAL will provide technical assistance, free of charge, whenever we are in case of manufacturing fault. The confirmation by Cifial of the manufacturing fault must be done on CIFIAL Office or by Cifial on the installation place when the first option is not possible. If Cifial is not responsible for the fault, the repair work should be paid by the client. A lot of the reported problems can be simply solved by cleaning or adjust the different devices as described in the instructions.

3. REPAIR SERVICE

When a repair intervention from CIFIAL is requested to the After Sales Service, Cifial will submit a budget for the service to the customer for approval before carry it on. The cost of the repairs service is the cost of transport, labour and products. In any case, if the client do not wanted to do the repair service, Cifial must bill for the transport and the labour already done.

3.1) COSTS

Transport: €0,40/ km, from the Cifial distributor to the final client place;
Labour: € 25,00/ hour, with 1 hour minimum;
Products: price list cost. If necessary another visit from Cifial because a missing product, the second visit will not be billed. For the transport cost calculations the distance to go and to return will be considered. To all the mentioned priced we must add the actual T.V.A..
